Profile

- Aspiring and self-motivated individual seeking a position with a desire to learn as much as possible and gain insight into the IT industry.
- Main characters: Ambitious & hardworking, innovative & creative, very flexible and adaptable
- Coming with ability to learn and acquire knowledge of handling web design and development

Education

Feb 2017 – **BACHELOR OF INFORMATION TECHNOLOGY**

Current Queensland University of Technology

- Major: Computer Science
- Minor: Data-centric Computing, Networks and Security
- Current GPA: 5.8 / 7.0
- Expected completion date: September 2019

Sep 2014 – **BACHELOR OF INFORMATION TECHNOLOGY**

Dec 2016 Ho Chi Minh City University of Information Technology, Vietnam.

- Finish 2nd year of 4,5 years program
- GPA: 8 / 10
- Relevant coursework: OOP, Algorithm, Computer Network and Communications.

Key courses breakdown

Networks

- **Summary:** Basic introduction to practical and theoretical knowledge on wide range of modern network-based application.
- **Result:** Credit

Software Development

- **Summary:** designed and implemented Java application for a supermarket chain that allows users to browse inventory, import and export sale logs, manifests using object-oriented programming paradigm and test-driven development.
- **Tech use:** Java, Swing, JUnit, Git
- **Result:** High distinction

Cloud Computing

- **Summary:** integrate a range of cloud-based services within a docker container as well as explore a cloud application that exercise ideas of scaling, load balancing and resource provisioning
- **Tech use:** NodeJS, Bootstrap, AWS, Docker, Git
- **Result:** High distinction

Networks and Systems Administration

- **Summary:** Explore theory and practical aspects of network administration, management and security policies in an environment (Unix or Linux) used in industry
- **Tech use:** Linux basic command, bash command and scripting
- **Result:** Distinction

Side Projects

Let's Connect

- Self-learn to create a social network that have basic functionalities such as comments, replies and likes...
- **Knowledge achieved:** NodeJS, ReactJS, Heroku, Git

Technical Skills

Programming languages

JavaScript, C#, Java, Python, C, C++

Framework

Angular, ReactJS, NodeJS, Bootstrap, Django

Databases

MySQL, MongoDB, SQLite, MSSQL

Other

Git, JSON, HTML5, CSS3, OOP, Scrum, Agile, RESTful, Linux, AWS, Docker

Other Experience

Internship at Dingo software Pty Ltd

- QUT's Capstone Programme with Industry Partners
- Develop a web-based application, automatically deployed from development environment to Heroku, to produce a benchmarking and comparison utility for Dingo's clients.
- **Knowledge achieved:** NodeJS, Angular, Heroku, Git, Scrum, Gitlab CI/CD, Team Collaboration
